

INFORMATION SECURITY POLICY

Effective Date: 15 October
2023
Doc.No: POL01
Revision No: 01

As Quadro-CRO, we provide services in the following areas:

- Clinical research support services for pharmaceuticals, medical devices, and cosmetic products
- Clinical information project management services
- Clinical data management
- Training and scientific presentation activities
- Electronic case report form (eCRF) design

In the fields in which we operate, our fundamental policy is to ensure the confidentiality, integrity, and availability of information assets belonging to our company, employees, clients, subcontractors, and suppliers by conducting risk analyses.

Based on the results of our information security risk assessments, we determine our information security objectives and provide the necessary resources and conditions to achieve these objectives.

In order to ensure the continuous improvement of our Information Security Management System (ISMS), we provide the necessary internal and external training to our employees and promote information security awareness throughout the organization.

Through the policies established for our subcontractors, suppliers, and third parties within our supply chain, we ensure the necessary conditions for the uninterrupted maintenance of information security.

Within our operations, we conduct continuous risk assessments regarding business continuity, emergency management, and cybersecurity, and remain committed to delivering uninterrupted services.

All processes related to information security are periodically reviewed to assess their accuracy and effectiveness and are continuously improved.
